NAME:	ADM NO:
CLASS:	DATE:

TIME: 2½ HOURS

Instructions to candidates:

1. This paper consists of three sections A, B and C.

- 2. Answer all questions from section A and B.
- 3. Answer **any two** questions from section C.

Section	Question	Maximum	Candidate's
		Score	Score
A	1 - 18	40	
В	18	20	
C	19	20	
	20	20	
	21	20	
TOTAL		100	

S	SECTION A: Answer all	he questions in this section.
1.	State two reasons for keeping the pit latrine covered at the hole when no	t in use. (2mrks)
2. 	Give three reasons why kitchen refuse should be disposed off regularly.	(3mrks)
3. 	Mention three sanitary practices necessary in life.	(3mrks)
4.	State three ways of caring for a washing machine.	(3mrks)
5.	State three factors which affect the efficiency of laundry detergent.	(3mrks)
6.	Give two reasons for use of bleaches in laundry.	(2mrks)
7.	Give two reasons for airing clothes and household articles after finishing	g. (2mrks)
8.	Suggest three reasons for storing clothes and articles in storage facilities	after ironing. (3mrks)

Giving reasons identify three fabrics which must be flat dried under the shade.	(3mrks)
Give two reasons for removing stains before washing.	(2mrks)
	(2mrks)
Explain three importance of environmental hygiene to a community.	(3mrks)
State four precautions to observe when using a charcoal iron.	(4mrks)
Explain other two methods of bleaching clothes other than using commercial bleaches.	(4mrks)
b) A toothbrush.	(½ mrk)
	v as von go
back to school.	(10mrks)
	b) A toothbrush. SECTION B: (COMPULSORY). (20 marks) You are preparing to go back to school after mid-term break. (a) Explain how you would thoroughly clean your black canvas shoes which you will carry

(b) Describe how to thorough clean a toothbrush.	(5mrks)

(c) Describe how you would wash your white towel.	(5mrk)

SECTION C: Answer any two questions in this section. (40marks) (7). (a) Give the functions of the following parts of a sewing machine. (8) Spool pin (8) Balance wheel (8) Stop motion screw (8) Stitch length regulation (9) Feed dog (9) Presser foot (9) Needle clamp (9) Needle clamp (9) Tension disk (ix) Take up lever (x) Machine belt (b) Identify the small sewing equipment with each of the following use: (1) Used for measuring small width such as hem. (1) Used for marking pattern symbols. (ii) Used for hanging complete or nearly complete garments. (iv) Used for making holes and eyelets. (y) Used when fitting garments. (y) Used when fitting garments. (y) Used when fitting garments. (y) For storing small needle work tools. (yii) For measuring long straight lines and for marking skirt length. (yiii) Used to press work after every stage of construction. (c) Give two reasons for using a thimble when stitching. (2) State six practices that would help prevent loss of colour during laundry. (b) State six practices that would help prevent loss of colour during laundry. (c) State eight precautions to take to ensured water is safe from disease causing germs. (8) Stagest six ways of preventing a knife from damage during its use and care. (6) Stagest six ways of preventing a knife from damage during its use and care. (6) Stafe cipht reacons why bar soan is commonly used in our houses.			
17. (a) Give the functions of the following parts of a sewing machine. (i) Spool pin (ii) Balance wheel (iii) Stop motion screw (iv) Stitch length regulation (v) Feed dog (vi) Presser foot (vii) Needle clamp (viii) Take up lever (x) Machine belt (b) Identify the small sewing equipment with each of the following use: (i) Used for measuring small width such as hem. (iii) Used for marking pattern symbols. (iii) Used for making holes and eyelets. (iv) Used for making holes and eyelets. (vi) For storing small needle work tools. (vii) For measuring long straight lines and for marking skirt length. (viii) Used to press work after every stage of construction. (c)Give two reasons for using a thimble when stitching. (2mrks) (b) State six deairable qualities of a good clothes line. (c) State eight precautions to take to ensured water is safe from disease causing germs. (8mrks) (9mrks) (6mrks) (6mrks) (6mrks) (6mrks) (6mrks) (6mrks) (6mrks)			
17. (a) Give the functions of the following parts of a sewing machine. (i) Spool pin (ii) Balance wheel (iii) Stop motion screw (iv) Stitch length regulation (v) Feed dog (vi) Presser foot (vii) Needle clamp (viii) Take up lever (x) Machine belt (b) Identify the small sewing equipment with each of the following use: (i) Used for measuring small width such as hem. (iii) Used for marking pattern symbols. (iii) Used for making holes and eyelets. (iv) Used for making holes and eyelets. (vi) For storing small needle work tools. (vii) For measuring long straight lines and for marking skirt length. (viii) Used to press work after every stage of construction. (c)Give two reasons for using a thimble when stitching. (2mrks) (b) State six deairable qualities of a good clothes line. (c) State eight precautions to take to ensured water is safe from disease causing germs. (8mrks) (9mrks) (6mrks) (6mrks) (6mrks) (6mrks) (6mrks) (6mrks) (6mrks)			
17. (a) Give the functions of the following parts of a sewing machine. (i) Spool pin (ii) Balance wheel (iii) Stop motion screw (iv) Stitch length regulation (v) Feed dog (vi) Presser foot (vii) Needle clamp (viii) Take up lever (x) Machine belt (b) Identify the small sewing equipment with each of the following use: (i) Used for measuring small width such as hem. (lmrk) (iii) Used for marking pattern symbols. (iv) Used for making holes and eyelets. (v) Used for making holes and eyelets. (vi) For storing small needle work tools. (vii) For measuring long straight lines and for marking skirt length. (viii) Used to press work after every stage of construction. (c)Give two reasons for using a thimble when stitching. (2mrks) (6mrks) (b) State six dangers on careless disposal of polythene bags. (6mrks) (6mrks) (6mrks) (6mrks) (6mrks) (6mrks) (6mrks) (6mrks) (6mrks)			
17. (a) Give the functions of the following parts of a sewing machine. (6 mrks)			•
(iii) Stop motion screw (iv) Stitch length regulation (v) Feed dog (vi) Presser foot (vii) Needle clamp (viii) Tension disk (ix) Take up lever (x) Machine belt (b) Identify the small sewing equipment with each of the following use: (i) Used for measuring small width such as hem. (ii) Used for marking pattern symbols. (iii) Used for hanging complete or nearly complete garments. (iv) Used or making holes and eyelets. (v) Used when fitting garments. (v) Used when fitting garments. (vii) For storing small needle work tools. (viii) Used to press work after every stage of construction. (viii) Used to press work after every stage of construction. (c) Give two reasons for using a thimble when stitching. (2mrks) (b) State six desirable qualities of a good clothes line. (6mrks) (c) State eight precautions to take to ensured water is safe from disease causing germs. (8mrks) (9) Suggest six ways of preventing a knife from damage during its use and care. (6mrks)	17. (a) G	ive the functions of the following parts of a sewing machine.	(10mrks)
(iii) Stop motion screw (iv) Stitch length regulation (v) Feed dog (vi) Presser foot (vii) Needle clamp (viii) Tension disk (ix) Take up lever (x) Machine belt (b) Identify the small sewing equipment with each of the following use: (i) Used for measuring small width such as hem. (ii) Used for marking pattern symbols. (iii) Used for hanging complete or nearly complete garments. (iv) Used for making holes and eyelets. (v) Used when fitting garments. (vi) For storing small needle work tools. (viii) For measuring long straight lines and for marking skirt length. (viii) Used to press work after every stage of construction. (c) Give two reasons for using a thimble when stitching. (2mrks) (b) State six desirable qualities of a good clothes line. (c) State eight precautions to take to ensured water is safe from disease causing germs. (6mrks) (b) Suggest six ways of preventing a knife from damage during its use and care. (6mrks)	(i)		
(iv) Stitch length regulation (v) Feed dog (vi) Presser foot (vii) Needle clamp (viii) Tension disk (ix) Take up lever (x) Machine belt (b) Identify the small sewing equipment with each of the following use: (i) Used for measuring small width such as hem. (1mrk) (ii) Used for marking pattern symbols. (1mrk) (iii) Used for hanging complete or nearly complete garments. (1mrk) (iv) Used for making holes and eyelets. (1mrk) (v) Used when fitting garments. (1mrk) (vi) For storing small needle work tools. (1mrk) (vii) Used to press work after every stage of construction. (1mrk) (viii) Used to press work after every stage of construction. (1mrk) (c) Give two reasons for using a thimble when stitching. (2mrks) 18. (a) State six practices that would help prevent loss of colour during laundry. (6mrks) (b) State six desirable qualities of a good clothes line. (6mrks) (c) State eight precautions to take to ensured water is safe from disease causing germs. (8mrks) 19. (a) List six dangers on careless disposal of polythene bags. (6mrks) (b) Suggest six ways of preventing a knife from damage during its use and care. (6mrks)	(ii)	Balance wheel	
(vi) Feed dog (vi) Presser foot (vii) Needle clamp (viii) Tension disk (ix) Take up lever (x) Machine belt (b) Identify the small sewing equipment with each of the following use: (i) Used for measuring small width such as hem. (1mrk) (ii) Used for marking pattern symbols. (1mrk) (iii) Used for hanging complete or nearly complete garments. (1mrk) (iv) Used for making holes and eyelets. (1mrk) (v) Used when fitting garments. (1mrk) (vi) For storing small needle work tools. (1mrk) (vii) For measuring long straight lines and for marking skirt length. (1mrk) (viii) Used to press work after every stage of construction. (1mrk) (c)Give two reasons for using a thimble when stitching. (2mrks) 18. (a) State six practices that would help prevent loss of colour during laundry. (6mrks) (b) State six desirable qualities of a good clothes line. (6mrks) (c) State eight precautions to take to ensured water is safe from disease causing germs. (8mrks) 19. (a) List six dangers on careless disposal of polythene bags. (6mrks) (b) Suggest six ways of preventing a knife from damage during its use and care. (6mrks)	(iii)	Stop motion screw	
(vii) Presser foot (viii) Needle clamp (viii) Tension disk (ix) Take up lever (x) Machine belt (b) Identify the small sewing equipment with each of the following use: (i) Used for measuring small width such as hem. (ii) Used for marking pattern symbols. (iii) Used for hanging complete or nearly complete garments. (iv) Used for making holes and eyelets. (iv) Used when fitting garments. (1mrk) (vi) Used when fitting garments. (1mrk) (vii) For storing small needle work tools. (viii) Used to press work after every stage of construction. (1mrk) (viii) Used to press work after every stage of construction. (1mrk) (c)Give two reasons for using a thimble when stitching. (2mrks) 18. (a) State six practices that would help prevent loss of colour during laundry. (6mrks) (b) State six desirable qualities of a good clothes line. (6mrks) (c) State eight precautions to take to ensured water is safe from disease causing germs. 19. (a) List six dangers on careless disposal of polythene bags. (6mrks)	(iv)	Stitch length regulation	
(vii) Needle clamp (viii) Tension disk (ix) Take up lever (x) Machine belt (b) Identify the small sewing equipment with each of the following use: (i) Used for measuring small width such as hem. (ii) Used for marking pattern symbols. (iii) Used for hanging complete or nearly complete garments. (iv) Used for making holes and eyelets. (iv) Used for making holes and eyelets. (iv) Used when fitting garments. (imrk) (vi) For storing small needle work tools. (vii) For measuring long straight lines and for marking skirt length. (viii) Used to press work after every stage of construction. (c)Give two reasons for using a thimble when stitching. (2mrks) (b) State six desirable qualities of a good clothes line. (c) State eight precautions to take to ensured water is safe from disease causing germs. (8mrks) (b) Suggest six ways of preventing a knife from damage during its use and care. (6mrks)	(v)	Feed dog	
(viii) Tension disk (ix) Take up lever (x) Machine belt (b) Identify the small sewing equipment with each of the following use: (i) Used for measuring small width such as hem. (ii) Used for marking pattern symbols. (iii) Used for hanging complete or nearly complete garments. (iv) Used for making holes and eyelets. (iv) Used when fitting garments. (iv) Used when fitting garments. (imrk) (vi) For storing small needle work tools. (imrk) (vii) For measuring long straight lines and for marking skirt length. (viii) Used to press work after every stage of construction. (c) Give two reasons for using a thimble when stitching. (2mrks) (b) State six practices that would help prevent loss of colour during laundry. (6mrks) (c) State eight precautions to take to ensured water is safe from disease causing germs. (8mrks) (9) Suggest six ways of preventing a knife from damage during its use and care. (6mrks)	(vi)	Presser foot	
(ix) Take up lever (x) Machine belt (b) Identify the small sewing equipment with each of the following use: (i) Used for measuring small width such as hem. (ii) Used for marking pattern symbols. (iii) Used for hanging complete or nearly complete garments. (iv) Used for making holes and eyelets. (iv) Used when fitting garments. (iv) Used when fitting garments. (ivi) For storing small needle work tools. (ivi) For measuring long straight lines and for marking skirt length. (vii) For measuring long straight lines and for marking skirt length. (imrk) (viii) Used to press work after every stage of construction. (c) Give two reasons for using a thimble when stitching. (2mrks) (b) State six practices that would help prevent loss of colour during laundry. (b) State six desirable qualities of a good clothes line. (c) State eight precautions to take to ensured water is safe from disease causing germs. (8mrks) (b) Suggest six ways of preventing a knife from damage during its use and care. (6mrks)	(vii)	Needle clamp	
(x) Machine belt (b) Identify the small sewing equipment with each of the following use: (i) Used for measuring small width such as hem. (ii) Used for marking pattern symbols. (iii) Used for hanging complete or nearly complete garments. (iii) Used for making holes and eyelets. (iv) Used for making holes and eyelets. (1mrk) (v) Used when fitting garments. (1mrk) (vi) For storing small needle work tools. (1mrk) (vii) For measuring long straight lines and for marking skirt length. (1mrk) (viii) Used to press work after every stage of construction. (2mrks) (c) Give two reasons for using a thimble when stitching. (2mrks) 18. (a) State six practices that would help prevent loss of colour during laundry. (6mrks) (b) State six desirable qualities of a good clothes line. (6mrks) (c) State eight precautions to take to ensured water is safe from disease causing germs. 19. (a) List six dangers on careless disposal of polythene bags. (6mrks) (6mrks)	(viii)	Tension disk	
(b) Identify the small sewing equipment with each of the following use: (i) Used for measuring small width such as hem. (ii) Used for marking pattern symbols. (iii) Used for hanging complete or nearly complete garments. (iii) Used for making holes and eyelets. (iv) Used for making holes and eyelets. (v) Used when fitting garments. (vi) For storing small needle work tools. (imrk) (vii) For measuring long straight lines and for marking skirt length. (viii) Used to press work after every stage of construction. (c) Give two reasons for using a thimble when stitching. (2mrks) 18. (a) State six practices that would help prevent loss of colour during laundry. (b) State six desirable qualities of a good clothes line. (c) State eight precautions to take to ensured water is safe from disease causing germs. (8mrks) 19. (a) List six dangers on careless disposal of polythene bags. (b) Suggest six ways of preventing a knife from damage during its use and care. (6mrks)	(ix)	Take up lever	
(i) Used for measuring small width such as hem. (ii) Used for marking pattern symbols. (iii) Used for hanging complete or nearly complete garments. (iv) Used for making holes and eyelets. (iv) Used when fitting garments. (imrk) (v) Used when fitting garments. (imrk) (vi) For storing small needle work tools. (imrk) (vii) For measuring long straight lines and for marking skirt length. (viii) Used to press work after every stage of construction. (imrk) (c) Give two reasons for using a thimble when stitching. (2mrks) 18. (a) State six practices that would help prevent loss of colour during laundry. (b) State six desirable qualities of a good clothes line.
